ALMOST PURE SILVER

The wonderful wealth that exists in the mountain ranges of Arizona is evidenced almost every day by the discovery of marvelously rich ore. Mr. Chillson was at Casa Grande two weeks ago, he brought from his mine in that district—the Great Eastern—a small sample of ore, which was pronounced by all to be remarkably rich and so it proved when assayed. Mr. Babcock made an assay of half a pound of ore which produced a bar of bullion weighting 5½ ounces of 992 fine silver. This at 94 cents an ounce is worth \$5.17. A ton of this kind of ore would be worth \$20.068. Of course such ore as this is only encountered in small ore as this is only encountered in small quantities, but it dont take much of this all the time and expects to develop it in-

## Teacher's Institute.

Monday next. The programme is now being prepared by County Superintend ent Thos. Cordis, and will be ready to sented in his garden and he has them of all sizes. Mr. Dunham has spent much time in caring for his bushes, but he considers himself well paid for his considers himself we but the attendance will be much larger and more general than it was last year.

The institute was originally intended to be held in the Opera House, but it has been now decided that the school building is the best place and it will be held there, where all the necessities for such exercises as will be provided for by the programme is at hand. This meeting of teachers, intended for a general inter-change of ideas on the various methods of teaching, cannot help being productive of much good and should receive the encouragement and co-operation of every friend of education in the County.

## The Picnic.

The picnic yesterday at Warner's mill, given for the benefit of the pupils of the public school was a complete success and highly gratifying to the teachers who had the arrangements in hand. It is estimated that over 500 children were present, together with many of their parents and friends. The children were on the ground early and all proceeded to enjoy themselves as they felt inclined. At one o'clock dinner was announced,

Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

Failing Health.

Ten years ago my health began to fail.

I was troubled with a distressing Cough,
Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but
became so weak that I could not go up
stairs without stopping to rest. My
friends recommended me to try Ayer's
Sarsaparilla, which I did, and I am now
as healthy and strong as ever. —Mrs.
E. L. Williams, Alexandria, Minn.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowler, M. D., D. D. S., Greenville, Tenn.

## Dyspepsia Cured.

It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians, and tried a great many kinds of mecicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is completely restored.—Mary Harley, Springfield, Mass.

SYMPTOMS OF CATARRH.—Dull heavy headache, obstruction of the nasa passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous purulent, bloody and putrid; the eyes are weak and watery; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with seabs from ulcers; the voice is changed and has a "nasal twang"; the breath is offensive; smell and taste are impaired; there is a sensation of dizzness, with mental depression, a hacking cough and general debility. Only a few of the above-named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, mere deceptive and dangerous, or less understood by physicians. By its mild, soothing, and healing properties, Dr. Sage's Catarrh, Remedy cures the worst cases of Catarrh, "Cold in the Head," Coryza, and Catarrhal Headache.

Prof. W. Hausner, the famous mesmerist, of Ithaca, N. Y., writes: "Some ten years ago I suffered untold agony from chronic misal catarra. My family physician gave me up as incurable, and said I must die. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughling and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarra Remedy, in three months, I was a well man, and the cure has been permanent."

"Constantly Hawking and Spitting."
Thomas J. Rushing, Esq., 2962 Pine Street, St. Louis, Mo., writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckly, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe a to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

A complete Treatise on Catarrh, giving valuable bints as to clothing, diet, and other matters of importance, will be mailed, postpaid to any address, on receipt of a two-cent postage stamp. Address, Constantly Hawking and Spitting,"
